and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

We have a tracfone for safety and security on the road we do not use it for business. Why should we pay for the volume users. We prefer the tracfone so we don't have monthly fees to contend with and we know where we are at all times on minutes and usage. Why is it that you can not leave well enough alone for a change instead of someone some where trying to make an extra dollar on working class peoples backs. Leave it alone.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Pat & Randy Caldwell
